

I would like to respectfully request that you continue to allow K-Love Radio to broadcast over it's current FM translator service. I have been so grateful for this radio station! In fact I send monthly support to keep them on the air.

K-LOVE is such a positive influence in any community. They encourage people to do what is good and right. There is not need to fear what children will hear on this station. They promote many humanitarian efforts. You actually feel good after listening to the songs.

I spend a significant amount of time commuting each day and would sorely miss this station if it were not available. The majority of the other stations are filled with filthy mouthed DJ's whose conversations are offensive and the music that is played can be a real discouragement due to rebellious or profane content.

Thank you for your consideration.
